

Broadway Subway Project

An extension of the Millennium Line

The Broadway Subway Project is a 5.7 km extension of the Millennium Line, from VCC–Clark Station to Broadway and Arbutus. It will provide fast, frequent, convenient SkyTrain service to B.C.'s second largest jobs centre, world-class health services, an emerging innovation and research hub, and growing residential communities.

How to get in touch

If you would like to receive project updates, please contact us by email:

For more information, visit the Project website at:

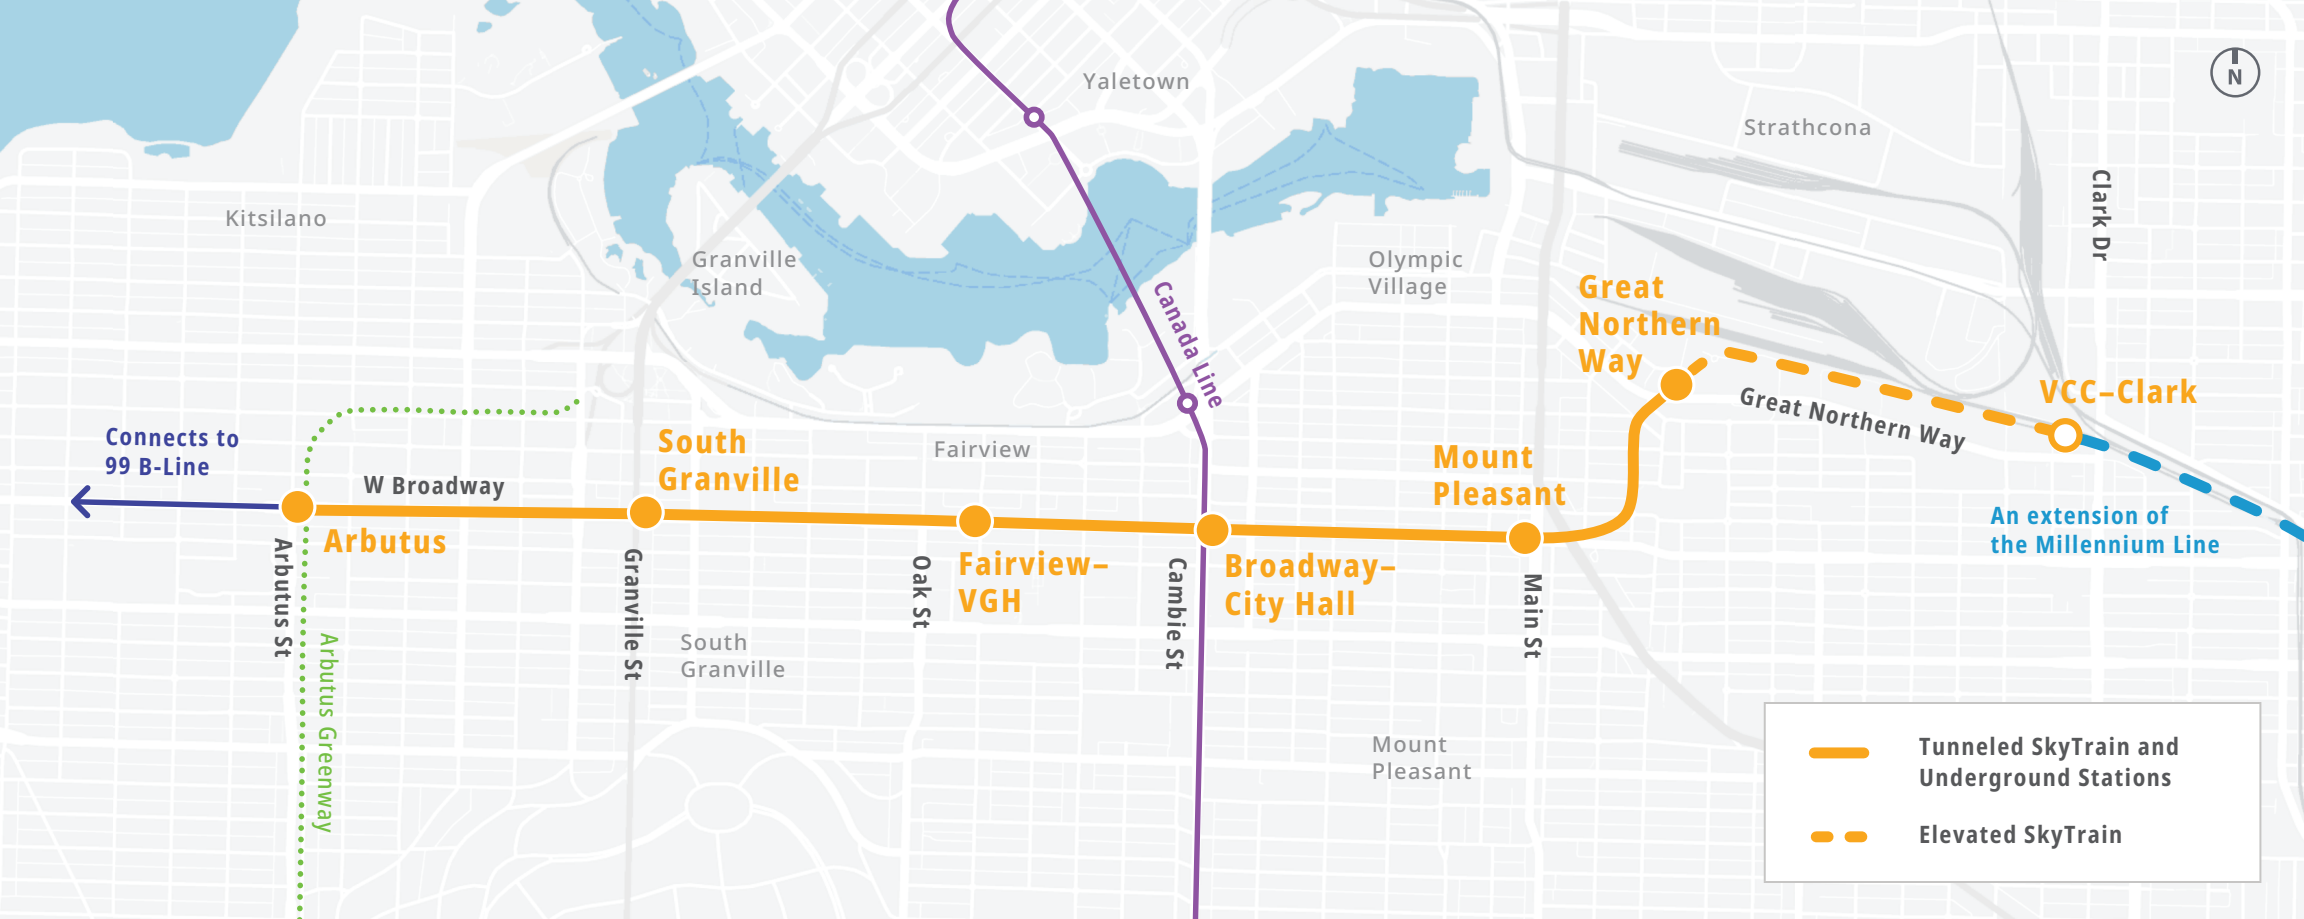

› engage.gov.bc.ca/broadwaysubway

You can also visit or call us at our Community Office, open Mondays, Wednesdays and Thursdays from 9am to 5pm

› 1212 West Broadway, Vancouver, B.C.

› 778.572.3544

Project route and stations. Interim station names were chosen for wayfinding purposes and are not considered final at this time.

About the Project

Six new underground stations will connect communities and neighbourhoods to make it easier and more affordable to live, work, shop, and access services along the Broadway Corridor. These stations will be fully integrated with bus, HandyDART, walking, and cycling for a complete multi-modal experience.

As an extension of the Millennium Line, the project will connect to the current SkyTrain network, including Expo and Canada Lines, and will integrate with the regional bus network.

The Broadway Subway Project budget is \$2.83 billion, funded and delivered by the Government of B.C., with contributions from the Government of Canada and the City of Vancouver.

Construction is anticipated to begin in fall 2020 with the line in service in 2025.

Once in service, the trip from VCC-Clark Station to Arbutus Station will take 11 minutes, saving the average transit commuter almost 30 minutes a day and relieving congestion along Broadway.
