

Update: Night Work to re-connect utilities near Granville Street and W. Broadway begins on October 24, 2021

October 19, 2021

Note: The notice from [October 7, 2021](#) included this work and we now have current scheduling, traffic details, and impacts to share.

The Broadway Subway Project Corporation (BSPC) is relocating utilities in your neighbourhood ahead of major construction. As part of this work, BSPC is relocating water service connections over a two-week period at Granville St. and at Hemlock St. Some work is being completed at night, beginning October 24th, to minimize impacts to businesses and residents. **BSPC will directly contact the businesses and residents we anticipate will be affected by a water shutdown or nightwork as additional dates are confirmed**

What to Expect

People in the area can expect two lanes of traffic on W. Broadway between Granville and Hemlock streets at night. Access to residences and businesses will be maintained. This work may also result in temporary sidewalk detours and elevated noise. Mitigation measures include, but are not limited to, conducting the noisiest construction activities during the early evening and white noise back-up beepers on heavy construction equipment during night construction. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood and on your property. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/.

Broadway Subway Project Corporation is committed to safety and COVID-19 Protocols while construction activities are underway and continues to follow the latest guidance from the Provincial Health Officer and WorkSafeBC.
