

## General Newsletter – December 2021

Construction of the Broadway Subway Project is underway with major construction activities at all six future station locations. On Broadway, at-grade traffic decks are being built in the station blocks which will allow us to maintain four lanes of traffic during underground construction.

Below is a snapshot of the activities at each site:

### Great Northern Way-Emily Carr

**Current:** Continuing bulk excavation on future station site; relocating utilities on Earl Finning Way and Carolina Street and E. 1st Ave; installing fencing around elevated guideway construction site; beginning installation of the elevated guideway columns; and conducting geotechnical surveys.

**December-Spring 2022:** Continuing excavation and the construction of the elevated guideway columns.

### Mount Pleasant

**Current-December:** Installing the traffic deck on E. Broadway between Main and Quebec streets; beginning excavation on the south side of E. Broadway; and excavating the ventilation shafts on Quebec Street.

**January:** Completing the traffic deck and beginning bulk excavation below the traffic deck for the station.

### Broadway City-Hall

**Current:** Relocating sewer lines beneath Cambie Street between W. 10th Ave and W. Broadway; relocating utilities along W. Broadway between Alberta and Cambie streets; excavating the north side of W. Broadway; building the traffic deck between Alberta and Cambie streets; and conducting geotechnical surveys.

**December-January:** Continuing the installation of the traffic deck.

### Oak-VGH

**Current:** Relocating utilities during the day and some nights; conducting geotechnical surveys; and relocating sewer lines under the intersections of W. Broadway and Laurel and Oak street.

**December-February:** Continuing to build the traffic deck.

### South Granville

**Current:** Drilling structural supports for the traffic deck; relocating utilities; and conducting geotechnical surveys.

**December-January:** Continuing to build the traffic deck.

## Arbutus

**Current – December:** Relocating fire hydrants and utilities; installing temporary light poles; closing portions of Maple Street; conducting geotechnical surveys; and starting the drilling of structural supports for the traffic deck.

**January – Spring 2022:** Continuing to build the traffic deck.

### Other important details:

- Access for all abilities is provided to residences, businesses, parking lots and services.
- People in the area may experience some noise and vibration from construction, as well as congestion, sidewalk modifications, temporary street closures and lane closures at night.
- Core working hours are from 6 a.m. to 10 p.m. There is occasional work over night as required.
- Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and signs.
- Parking restrictions along Broadway are extended 24/7 instead of only within peak periods, to allow for bus priority in the curb lanes and emergency vehicle access when required.
- Access for first responders is maintained at all times.
