

UPDATE: Night Work to relocate utilities at Broadway between Maple and Arbutus streets resumes on February 28, 2022 and extends through early March

February 25, 2022

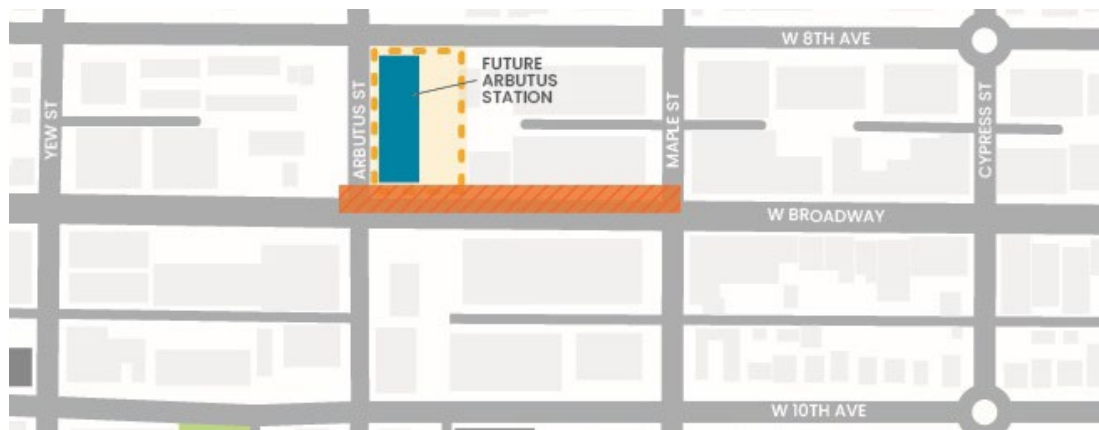

Note: The notice from [December 24, 2021](#) includes this work and we have updated scheduling to share.

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood relocating utilities from Arbutus to Maple St. ahead of major construction. Due to the location of the utilities, this work is being done overnight to minimize impacts to businesses, pedestrians, and traffic. Work is expected to run until early March 2022. **BSPC will directly contact the businesses and residents we anticipate will be affected by a water shutdown.**

What to Expect

Access to residences, businesses, and parking lots will be maintained throughout the night work. People in the area can expect overnight lane restrictions on W. Broadway from Arbutus St. to Cypress St., lane restrictions on Arbutus St., and temporary sidewalk detours around the work area. Residents should also expect some activity in the project site area at Arbutus and Broadway. The work will result in elevated noise during the day and night. Mitigation measures include, but are not limited to, conducting the noisiest construction activities during the early evening and minimizing the use of back-up beepers on heavy construction equipment during nighttime construction. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood and on your property. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/.

Broadway Subway Project Corporation is committed to safety and COVID-19 Protocols while construction activities are underway and continues to follow the latest guidance from the Provincial Health Officer and WorkSafeBC.
