

Construction Update: Mount Pleasant Station

February 4, 2022

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood continuing major construction near the future Mount Pleasant Station. Activities for the next three months include:

- **February:** Completing the south side excavation of the road surface; increasing traffic from three to four lanes onto the completed traffic deck; and beginning excavation under traffic deck for the underground station.
- **March - April:** Continuing the excavation of the underground station, head house, and ventilation shafts on Quebec Street.

Residents and businesses will experience noise and vibration during major construction activities. People in the area should expect congestion, sidewalk modifications, temporary street closures including Quebec Street, temporary lane closures, and reduced street parking, speed limits and travel lanes. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs. All businesses remain open and access to residences, businesses and parking lots will be maintained for all abilities. [Visit](#) the parking alternatives map for options.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. We will continue to keep you informed in advance of work, including night work for traffic deck installation, to help you plan accordingly. Thank you for your patience.

[Notices](#) are available online for more information. Want to learn more? Check out the [four steps to build a traffic deck](#).

Broadway Subway Project Corporation is committed to safety and COVID-19 Protocols while construction activities are underway and continues to follow the latest guidance from the Provincial Health Officer and WorkSafeBC.
