

Night Work to install the traffic deck in Broadway-City Hall starts on February 7, 2022

Note: The updated notice from February 2 included this work and we now have current night activities to share.

The installation of the traffic deck will start on the north side of W. Broadway, from Alberta Street and moving west to Cambie Street. See our infographic on how a traffic deck is built at <https://www.broadwaysubway.ca/construction/photos-and-videos/>.

The current traffic configuration of 2 eastbound and 1 westbound lanes will be maintained during daytime work, except during 10 a.m. – 3 p.m. where traffic lanes are reduced to one lane in each direction between Alberta and Cambie streets. During night work there will be a single, alternating lane on W. Broadway between Alberta and Cambie streets with up to 10-minute lane closures for crane movements starting at 12 a.m. until 5 a.m.

Residents and businesses will experience elevated noise and vibration during the installation of the traffic deck. Pedestrians will be detoured around work zones as required. Please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs. Flaggers and signs will assist pedestrians and cyclists navigate.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details
