

# Night work to install bypass pipes for utilities in the intersection of Cambie Street at W. Broadway starts March 4

March 2, 2022

**Note: The notice from Sept. 24, 2021 mentioned this work and we now have an updated schedule to share.**

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood relocating the sanitary and combined sewer lines running beneath Cambie Street near the new Broadway-City Hall station. The installation of bypass pipes on the northwest half of the intersection of Cambie Street at W. Broadway will be conducted over approximately one week at night to minimize traffic disruptions.

*Please note, this information is current at the time of sending; however, schedules are subject to change. Visit [www.broadwaysubway.ca](http://www.broadwaysubway.ca) for current details.*

## What to Expect

Throughout construction activities, access to residences, businesses, and parking lots will be maintained. During night work, traffic lanes will remain consistent with the daytime configuration on W. Broadway. Southbound traffic on Cambie Street will be reduced to one lane starting at W. 8th Avenue through the intersection of W. Broadway from 8 p.m. to 5 a.m. each night, except for Saturday. The northern crosswalk on W. Broadway at Cambie will also be closed at night. Residents and businesses in the area will experience elevated noise during this time. Mitigation measures include, but are not limited to, conducting the noisiest construction activities during the early evening and white noise back-up beepers on heavy construction equipment. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs. The orange in the map below indicates the work zone related to the utility relocation, while the red illustrates areas of restricted vehicle access.
