

Removing trees on East 1st Avenue starting March 19

March 17, 2022

The Broadway Subway Project Corporation (BSPC) will be removing trees in the Great Northern Way construction corridor in order to provide clearance for temporary parking and loading zones. Along the north side of the East 1st Avenue, BSPC will remove 5 trees (katsura species, cercidiphyllum japonicum) between 9 a.m. to 5 p.m. The area in blue below highlights the approximate tree removal area.

Once work is completed, the north curb of East 1st will be redeveloped; the Project team will work with the City of Vancouver through the street design process to replace these trees with new trees that complement existing trees in this neighbourhood. In addition, the landscape team will create vegetation features to maintain the neighbourhood's distinct look and feel.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood and on your property. We will continue to keep you informed in advance of any local work now and in the future to help you plan accordingly. Thank you in advance for your patience.

Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/. Updates will also be emailed to local registered contacts, and additional notification will be provided where possible. Please note, construction schedules can change on short notice.

Broadway Subway Project Corporation is committed to safety and COVID-19 Protocols while construction activities are underway and will be following the latest guidance from the Provincial Health Officer and WorkSafeBC.
