

Traffic patterns continue to change around the future Arbutus Station – Night work at Arbutus St. and W. Broadway begins March 14, 2022

March 7, 2021

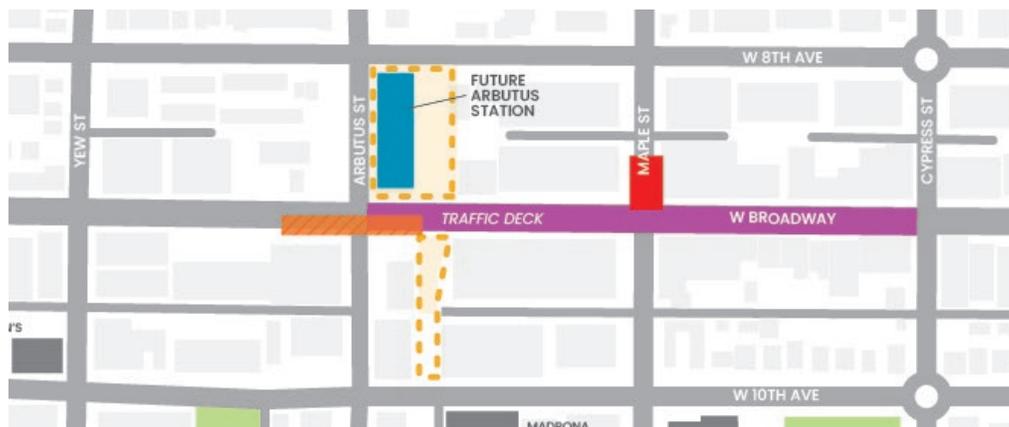

Note: The notice from [February 10, 2022](#) included this work and we now have current scheduling details to share.

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood continuing to prepare for the installation of the traffic deck between Arbutus and Cypress streets. Some of this work will be conducted at night due to the future location of the panels within in the Arbutus and W. Broadway intersection, which requires lane closures. The nighttime work is expected to take up to five nights with crews working between 8:00 p.m. and 5:00 a.m.

What to Expect

Throughout construction activities, access to residences, businesses, and parking lots will be maintained. Work will take place on W. Broadway (Yew to Maple streets). Work activities include but are not limited to the installation of concrete barriers, line painting, lighting and electrical work, excavation, and concrete placement. Residents and businesses in the area will experience elevated noise during this time. The work area is shown in orange in the map below.

We thank residents for their patience while we conduct the necessary night work. People travelling in the area may experience some traffic congestion related to temporary turning restrictions in place at Arbutus, periodic lane restrictions, as well as sidewalk modifications and pedestrian detours around the work areas. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs. *Please note, this information is current at the time of sending; however, schedules are subject to change. BSPC will update the website with specific dates once timelines are confirmed. Visit www.broadwaysubway.ca for current details.*

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/.

Broadway Subway Project Corporation is committed to safety and COVID-19 Protocols while construction activities are underway and continues to follow the latest guidance from the Provincial Health Officer and WorkSafeBC.
