

Update on excavation work at the future Mount Pleasant Station

May 16, 2022

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the Mount Pleasant Station. As part of the excavation beneath the traffic deck, areas of hard rock are being uncovered and there will be elevated noise. Residents and businesses in the area can expect intermittent concussive sounds and vibrations emanating from the site during the rock breaking work between 7 a.m. to 11 p.m.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. We will continue to keep you informed in advance of any local work now and in the future to help you plan accordingly. Thank you in advance for your patience.

Bulk excavation continues to be anticipated for completion in the summer.

Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/. Updates will also be emailed to local registered contacts, and additional notification will be provided where possible. Please note, construction schedules can change on short notice.
