

Traffic patterns are changing around the future South Granville Station on August 26 – Night Work

August 24, 2022

Note: The notice from [February 23, 2022](#) includes this work and we have updated scheduling and traffic details to share.

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the traffic deck. On August 26, a dedicated left-turn lane will be established on W. Broadway westbound at Granville Street. The addition of this lane will complete the traffic deck, which will maintain an at-grade, safe, and consistent four-lane traffic configuration with a dedicated turn lane while station construction continues below the deck.

The traffic change and related works will be performed overnight to minimize the impact on businesses and residents. Work includes reconfiguring traffic signals and street lighting, paving, line removal and painting, and placement of barriers.

What to Expect

Access for all abilities will be maintained to residences, businesses, and services. People in the area can expect congestion, reduced speed, and overnight lane closures on W. Broadway between Fir and Birch streets, with one lane maintained in each direction. There will also be lane restrictions on Hemlock and Granville streets, from W. 10th Ave. to W. 8th Ave. Please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs. Residents will also experience elevated noise during the work. Mitigation measures include, but are not limited to, using white noise-beepers on heavy construction vehicles where possible.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/.
