

Night work: Construction activities below the Broadway-City Hall traffic deck start September 26

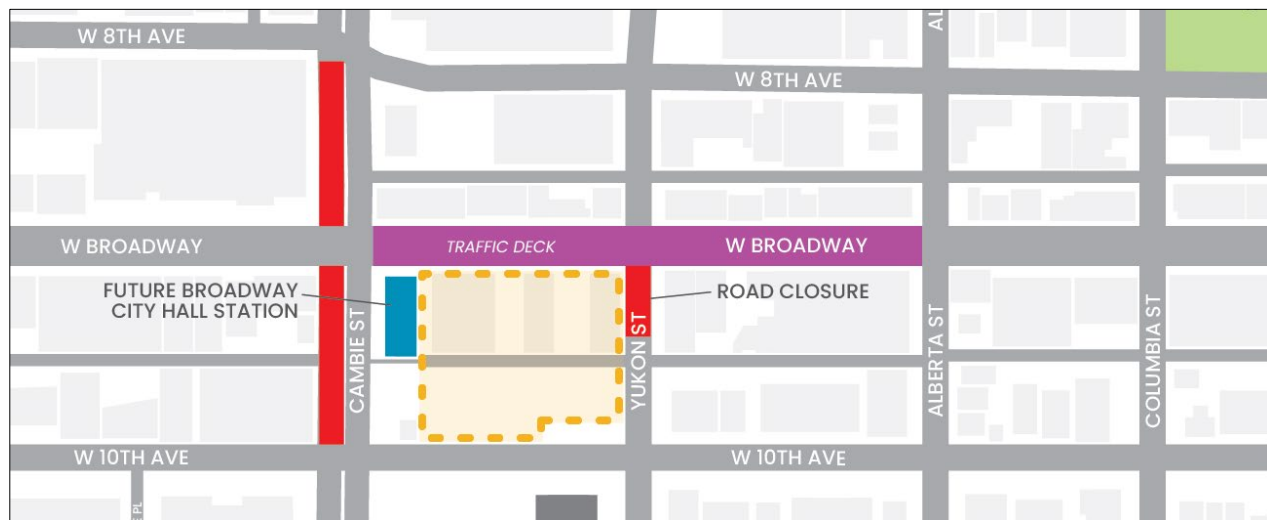

September 23, 2022

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the Broadway Subway Project. As part of this work, BSPC is excavating beneath the traffic deck in preparation for the construction of the underground station. To reinforce the excavation walls, crews will be working below the traffic deck from 10 p.m. – 6 a.m. welding steel struts to the previously installed vertical supports. Excavation and shoring are anticipated to be completed by the end of the year.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

What to Expect

Residents will experience elevated noise during the work. Mitigation measures include, but are not limited to, using electric tools in place of diesel-powered machines, and installing white noise back-up beepers on construction equipment. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/.
