

UPDATE: Traffic patterns changing around Broadway-City Hall Station as Cambie sewer replacement progresses – Night Work

October 5, 2022

Note: The notice dated June 10, 2022 has been updated with current scheduling.

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood relocating the sanitary and combined sewer lines running beneath Cambie Street in order to build the new Broadway-City Hall Station.

BSPC is excavating the west side of Cambie south of W. Broadway to install new sewer pipes. With the excavation moving north across the intersection of Cambie at W. Broadway, east-west traffic through the intersection and west towards Ash Street will be reduced to three lanes (one eastbound and two westbound) during weekday days, and one lane in each direction at night and on weekends. The lanes available for travel will shift as the excavation moves across the intersection.

The sewer relocation activities include daytime and regular night work (8 p.m. – 5 a.m.) until the end of November 2022.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

What to Expect

During night work to implement the traffic shift, a single lane of traffic in each direction will be maintained between Cambie and Ash streets. Crosswalks and sidewalk segments may be closed, and pedestrians detoured around workzones throughout the sewer relocation project. Residents will experience elevated noise. Mitigation measures include, but are not limited to, installing white noise back-up beepers on heavy construction equipment where possible, and performing the noisiest activities by 8 p.m. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood and on your property. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/.

Broadway Subway Project Corporation is committed to safety and COVID-19 Protocols while construction activities are underway and continues to follow the latest guidance from the Provincial Health Officer and WorkSafeBC.
