

# Truck volumes increase around the Mount Pleasant site on October 8

October 6, 2022

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Mount Pleasant Station. Work on October 8 involves pouring of the station concrete foundation. Concrete trucks will be traveling along Main Street (northbound and southbound), E. 10<sup>th</sup> Avenue (eastbound and westbound), and Quebec Street (northbound between E. 10<sup>th</sup> Avenue and E. Broadway) to deliver materials to the site. Trucks will be staged throughout the work along Great Northern Way from 4:30 a.m. to 6:00 p.m. Additionally, concrete trucks will be required to maintain engines running at all times to keep their drums turning. It is expected that this work will be completed before 10 p.m. There will continue to be increased truck volumes in these areas while we build the station.

Access to residences, businesses, and parking garages will be maintained during all work activities. Residents and businesses in the area should expect elevated noise, sidewalk modifications, and lower speed limits. Pedestrians and cyclists will be detoured around work zones as required. The Mobi Bike station adjacent to the laneway will not be impacted. Please watch for and obey traffic control personnel and all signs, and plan extra travel time.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. We will continue to keep you informed in advance of any local work now and in the future to help you plan accordingly. Thank you in advance for your patience.

Updates will be provided at [broadwaysubway.ca/construction](https://broadwaysubway.ca/construction), and the location of the work can be viewed on a map at: [broadwaysubway.ca/construction/maps/](https://broadwaysubway.ca/construction/maps/). Updates will also be emailed to local registered contacts, and additional notification will be provided where possible. Please note, construction schedules can change on short notice.
