

## Update: Utility relocation continues on Arbutus St. from W. Broadway to W. 10<sup>th</sup> Ave. – Lane restrictions and Night Work – through mid-December

November 9, 2022

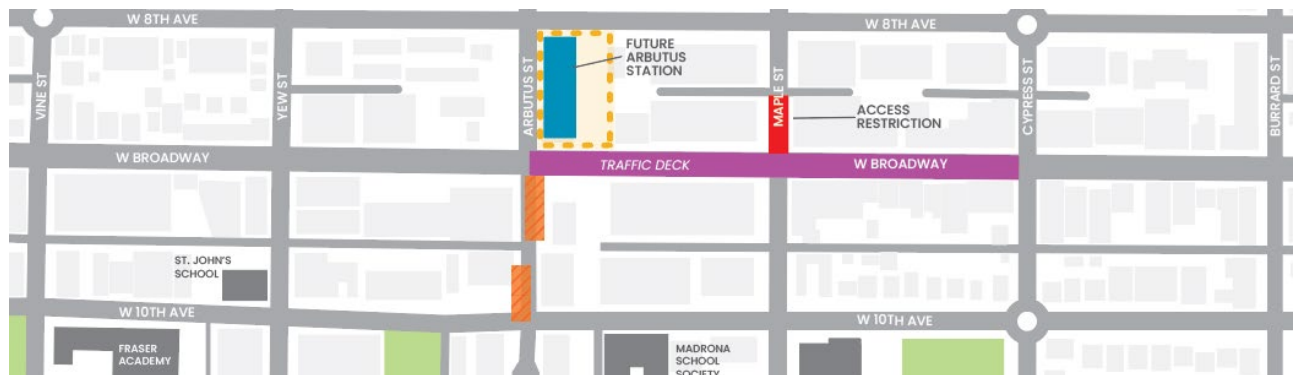

**Note: The notice from [October 28, 2022](#) includes this work and we have updated scheduling to share.**

The Broadway Subway Project Corporation (BSPC) has relocated a watermain in your neighbourhood ahead of building the Arbutus Station. This watermain will be reconnected to Vancouver’s existing distribution system by Metro Vancouver. Preparatory work has been ongoing since mid-October and will continue until mid-November. Then, beginning on November 14 and continuing for about two weeks, Metro Vancouver will complete this tie-in work in collaboration with BSPC. Arbutus St. from the laneway north of W. 10<sup>th</sup> Ave. to W. Broadway will remain closed to northbound vehicles during this work. Southbound vehicle access will be maintained. Additionally, work at W. 10<sup>th</sup> Ave. will temporarily eliminate the westbound right turn onto W. 10<sup>th</sup> from Arbutus St. for vehicles. Vehicles are advised to take Cypress, Burrard, Maple, or Vine streets as alternate routes. Cyclist and pedestrian access for all abilities will be maintained to residences, businesses, and services. The work areas are shown in orange below, with red indicating other current street closures. The tie-in work will be performed during the day and night. Subsequently, BSPC will complete filling in and re-paving the work area, which is expected to be conducted during the day early to mid December. Lane closures will be in effect through mid December.

### What to Expect

People in the area can expect elevated noise levels during day and night from increased truck traffic, generators and water pumps; overnight light sources; some traffic congestion; reduced speeds; and to be detoured around the work as required. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs. There is a small possibility of increased cloudiness (turbidity) of water as a result of this work. This cloudiness should disappear within a few hours. Even with increased cloudiness, water is still safe to drink. If your water is cloudy, run your cold water tap until water clears. If you have questions about water quality or this work, please reach out to Metro Vancouver at [icentre@metrovancover.org](mailto:icentre@metrovancover.org) or 604-432-6200 (8:30 am to 4:00 pm). We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience.

*This information is current at the time of sending; however, schedules are subject to change.*

Updates will be provided at [broadwaysubway.ca/construction](https://broadwaysubway.ca/construction).
