

Truck volumes will increase around the Mount Pleasant site to accommodate concrete activities

November 7, 2022

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Mount Pleasant Station. Concrete activities around the station will continue intermittently over the coming weeks. Business access is being maintained during these activities, so please watch for and obey traffic control personnel and all signs, and plan extra travel time as you navigate the area.

Work on November 12 involves the second major pouring of the concrete station foundation. Concrete trucks will be traveling along Main Street, E. 10th Avenue and Quebec Street to deliver materials to the site. Trucks will be staged throughout the work along Great Northern Way and on Main Street (refer to yellow zone on map below) from 4 a.m. until 10 p.m. Additionally, there will be parking restrictions on Quebec Street between E. 10th Avenue and the laneway south of E. Broadway (refer to map). Concrete trucks will be required to have engines running at all times to keep their drums turning. It is expected that work related to the concrete pour will be completed before 11 p.m. with low noise work continuing overnight to finish related activities.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience. Access to residences, businesses, and parkades will continue to be maintained during all work activities. Residents and businesses in the area should expect elevated noise, sidewalk and crosswalk modifications, and lower speed limits. Pedestrians and cyclists will be detoured around work zones as required. The Mobi Bike station adjacent to the laneway will not be impacted. There will continue to be increased truck volumes in these areas while we build the station.

We will continue to keep you informed in advance of any local work now and in the future to help you plan accordingly. Updates will be provided at broadwaysubway.ca/construction
