7 Station Completion

Stations are finished with machines to tap fare cards, and signs to help plan travel routes. Seating areas, lighting and art are also added.

The roads and sidewalks are completed, and beautiful outside spaces are created for everyone to enjoy.

Did you know?

Once the new stations are opened, the time to travel from VCC-Clark Station to Arbutus Station will be **11 minutes!**

Let's get ready!

We can follow the maze to learn about what we need to finish the stations!

For this experiment, you will need:

- a pencil
- the station maze printout (page 2)

Let's get started

Let's think about all of the different finishing pieces that are needed in a station. You will need to help Digby move from the station entrance to the train.

➔ Can you think of three things that Digby will need to get from the entrance to the train?

Write what you learned about the station and what's inside!

_____

_____

Here is a list of many things you will find to help in the Skytrain station.
As you work your way through the maze, you will see them all on the correct path!

- ATM
- stores
- ticket machines

- SkyTrain maps
- fare gates
- yellow safety strip

- hand straps
- priority seating
