

Truck volumes will increase around the Mount Pleasant site on December 3

November 30, 2022

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Mount Pleasant Station. Work on December 3 involves the third major pouring of the concrete station foundation. Concrete trucks will be traveling along Main Street (northbound and southbound), E. 10th Avenue (eastbound and westbound), and Quebec Street (northbound between E. 10th Avenue and E. Broadway) to deliver materials to the site. Trucks will be staged throughout the work along Great Northern Way and then to the Main Street southbound curb lane (refer to yellow zone on map below) from 4 a.m. until 10 p.m. Additionally, there will be parking restrictions on Quebec Street between E. 10th Avenue and the laneway south of E. Broadway (refer to map) as well as the eastbound curb lane of E. 10th Avenue between Quebec Street and the laneway. Concrete trucks will be required to maintain engines running at all times to keep their drums turning. It is expected that work related to the concrete pour will be completed before 11 p.m. with low noise work continuing overnight.

Access to residences, businesses, and parkades will continue to be maintained during all work activities. Residents and businesses in the area should expect elevated noise, sidewalk modifications, and lower speed limits. Pedestrians and cyclists will be detoured around work zones as required. The Mobi Bike station adjacent to the laneway will not be impacted. Please watch for and obey traffic control personnel and all signs, and plan extra travel time. There will continue to be increased truck volumes in these areas while we build the station.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. We will continue to keep you informed in advance of any local work now and in the future to help you plan accordingly. Thank you in advance for your patience.

Updates will be provided at broadwaysubway.ca/construction, and the location of the work can be viewed on a map at: broadwaysubway.ca/construction/maps/. Updates will also be emailed to local registered contacts, and additional notification will be provided where possible. Please note, construction schedules can change on short notice.
