

Update: Geotechnical investigations on W. Broadway at Heather Street continuing in December

November 25, 2022

Note: The notice from Nov. 16, 2022 includes this work and we have updated scheduling, traffic details, and impacts to share.

The Broadway Subway Project Corporation (BSPC) will be conducting geotechnical investigations in your neighbourhood to collect information that will inform planning for tunnel construction. Work on W. Broadway at Burrard Street has been completed and work will now be happening at Heather Street in early December from 10 a.m. to 3 p.m. on. The work area is shown in orange in the maps below. Work activities will include removal of asphalt, excavation, placing of road plates, installation of sensor equipment, and repaving the areas. The #99 B-Line eastbound bus stop at Heather Street will move from the west side to the east side of Heather Street during this work. Bus stops are shown below with a blue dot.

What to Expect

Access for all abilities will be maintained to residences, businesses, and services. People in the area can expect elevated noise levels, temporary vehicle lane restrictions, some traffic congestion, reduced speeds, and to be detoured around the work as required. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs. We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

Updates will be provided at broadwaysubway.ca/construction.
