

Night work to complete utility activities at the future South Granville Station is scheduled for January 22 and 23

January 17, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future South Granville Station. Overnight on January 22 and 23, crews will be working to complete utility work on W. Broadway between Hemlock and Granville streets. Work will begin January 22 at 8 p.m. and continue until 5:30 a.m. the following morning. Work will continue on January 23 during the same time period.

What to Expect

Access to residences, businesses, and parking lots will be maintained throughout the night work. People in the area can expect one lane of traffic in each direction to be maintained, pedestrians to be detoured around the work, some elevated noise during the work, specifically around hydro vac activities up to 10 p.m., and overnight lighting in the area focused on the site to maintain safety for our crews. Mitigation measures include, but are not limited to, conducting the noisiest construction activities earlier in the evening, installing white noise back-up signals on equipment, utilizing quieter models of equipment, including hand tools, installing moveable sound barriers, and directing all lights away from residential buildings. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction.
