

## Noisy work on Maple Street north of W. Broadway begins January 7

January 6, 2023

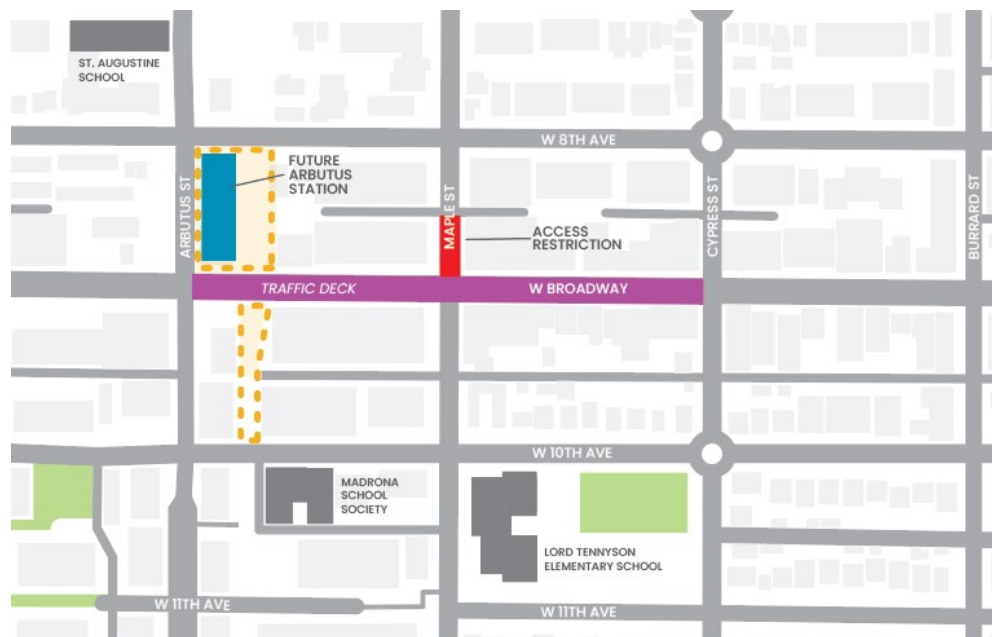

**Note: The notice from [December 1, 2022](#) includes this work and we have updated scheduling and traffic details to share.**

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood completing the traffic deck at the future Arbutus Station. Crews will be working with hydrovac machines beginning the week of January 7, 2023 from 7 a.m. until 8 p.m. on Maple Street north of W. Broadway to prepare for the final stage of deck installation. This work is expected to be completed by the end of January. The traffic deck is anticipated to be complete late winter 2023.

### What to Expect

Residents and businesses can expect elevated noise levels related to the hydro vac work. There will be noise dampening panels around the machines to help reduce related noise. Access for all abilities will be maintained to residences, businesses, and services. People in the area can expect increased truck traffic, some traffic congestion, reduced speeds, and to be detoured around the work as required. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs. The red on the map below shows the work area.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience. Please note, this information is current at the time of sending; however, schedules are subject to change. Updates will be provided at [broadwaysubway.ca/construction](https://broadwaysubway.ca/construction).
