

Updated: Night work at the future South Granville Station continues to the end of February

February 2, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future South Granville Station. Work that began on December 5, 2022 will continue to the end of February 2023, crews will be welding at night between 10 p.m. and 5 a.m. underneath the traffic deck between Hemlock and Granville streets.

What to Expect

Access to residences, businesses, and parking lots will be maintained throughout the night work. People in the area can expect some elevated noise during the work, and overnight lighting in the area focused on the site to maintain safety for our crews. Mitigation measures include, but are not limited to, conducting the noisiest construction activities during the day, utilizing quieter models of equipment, including hand tools, and directing all lights away from residential buildings. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Please note, this information is current at the time of sending; however, schedules are subject to change. Visit www.broadwaysubway.ca for current details.

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you in advance for your patience. Updates will be provided at broadwaysubway.ca/construction.
