

Increased truck volumes around the Mount Pleasant site on March 28

March 27, 2023

Note: The notice from [December 19, 2022](#) includes this work and we have updated details to share.

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Mount Pleasant Station. Work on March 28 involves the pouring of the concrete foundation for the station entrance building (headhouse). This is the final major concrete pour for the base slab foundation at the future Mount Pleasant Station. In total, about 150-170 trucks will pour 1,500 cubic metres of concrete over the course of the day. Trucks will use the following streets:

- Main Street between E. 2nd and southward
- E. 10th Avenue between Main and Quebec streets
- Quebec Street between E. 10th Avenue and E. Broadway
- Laneway from Quebec St. to E. 10th Avenue

Hours of Work

Set up on site will begin around 5 a.m. on March 28, with the first concrete trucks arriving at 6 a.m. The concrete pour is scheduled until 10 p.m. with low noise work continuing overnight to finish related activities.

What to expect

- Elevated noise.
- Concrete trucks are required to have their engines running at all times to keep their drums turning, and to use traditional back-up alarms in place of white noise signals for crew safety.
- Main Street will be reduced to one lane southbound between Kingsway and E. 10th Avenue.
- Trucks will stage on Main Street southbound between E. Broadway and E. 8th Avenue.
- Overnight lighting focused on our sites to ensure crew safety.

Mitigation measures include, but are not limited to, directing lights away from residential buildings and managing work activities to utilize less noisy equipment and methodologies in the evening and overnight. Access to residences, businesses, and parkades will be maintained during all work activities.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
