

# Girder installation begins in March – includes night work

March 3, 2023

**Note: The notice from [February 2, 2023](#) includes this work and we have updated details to share.**

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the elevated guideway that connects VCC-Clark Station to Great Northern Way Station. In early March, crews will begin the installation of girders connecting the piers. The girders will be delivered and lifted into place at night and during the day workers will prepare the piers for the installation of girders.

## Timing

- Regular daytime hours of work are Monday to Friday with occasional weekend work, 6 a.m. to 10 p.m.
- Delivery of materials and girder installation will involve night work Sunday to Friday, from 9 p.m. to 5 a.m.
- This phase of work is expected to continue through spring and the completion of the elevated guideway is anticipated by the end of 2023.

## What to expect

- Site lighting, intermittent elevated noise, and increased construction vehicles and crane activity.
- Intermittent temporary road closures, reduced speed limits, and travel lanes.

Mitigation measures include but are not limited to installing white noise back-up signals on equipment and focusing lighting away from residential areas.

## Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
