

Update: Rock-breaking in the Oak-VGH area

April 21, 2023

Note: The notice from [June 28, 2022](#) includes this work and we have updated details to share.

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Oak-VGH station. As part of the excavation process, we are conducting intermittent rock-breaking activities where large pieces of rock may be uncovered and then broken apart in order to be removed. Excavation is anticipated to be completed in Summer 2023.

Timing

Rock breaking occurs intermittently between the hours of 7 a.m. and 8 p.m.

What to expect

- Elevated noise
- Vibration

Mitigation measures include but are not limited to installing white noise back-up signals on some equipment and monitoring noisy activities so that mitigation measures can be adapted as needed.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
