

First major concrete pour at the future Arbutus Station on September 22

September 18, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Arbutus Station. On September 22, crews will complete the first major concrete pour for the station's foundation. Approximately 80 trucks will pour more than 870 cubic meters of concrete during the day, with additional pours of varying volumes over the coming months.

Timing

For each major pour, set up will begin around 5 a.m. The first concrete trucks will arrive on site at approximately 6 a.m. The concrete pour is scheduled to continue until about 10 p.m. with low noise work continuing overnight to finish related activities.

What to expect

- Some elevated noise related to trucking. Concrete trucks are required to have their engines running at all times to keep their drums turning, and to use traditional back-up alarms for crew safety.
- Concrete trucks will be staging on the westbound curb lane of W. Broadway between Fir and Pine streets. Further truck staging will occur on W. Broadway at the northeast corner of Cypress Street and on W. Broadway at Maple Street.
- Concrete trucks will access the construction site via the entrance on W. Broadway. Trucks will exit the site onto Arbutus Street southbound. There will be traffic control personnel to help manage traffic during all work.
- W. Broadway will be reduced to one lane in each direction during the work
- Night lighting focused on our sites to ensure crew safety.
- Access to residences, businesses, and parkades will be maintained during all work activities.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
