

Night work at the future Arbutus Station continues until November

September 11, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Arbutus Station. As crews prepare the station for the arrival of the tunnel boring machines and the next phase of construction, we will be working days and overnight along W. Broadway between Arbutus and Cypress Streets. Night work includes, but is not limited to welding, excavation, and waterproofing. Daytime activities include trucking, installing rebar or other materials, pouring concrete, and crane activities.

Timing

- Typical hours of work are from 6 a.m. to 10 p.m.
Overnight work hours are from 10 p.m. until 4 a.m. and will continue through the Fall

What to expect

- Some elevated noise related to construction activities.
- Overnight lighting focused on our sites to ensure crew safety.

Mitigation measures include, but are not limited to, installing noise barriers when required, utilizing quieter models of equipment at night, including hand tools, and directing all lights away from residential buildings. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
