

## Night work at the future South Granville Station begins September 11<sup>th</sup>

September 8, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future South Granville Station. As crews prepare the station for the arrival of the tunnel boring machines, we will be working at night from 10 p.m. to 12 a.m. between Granville and Hemlock streets in addition to daytime construction.

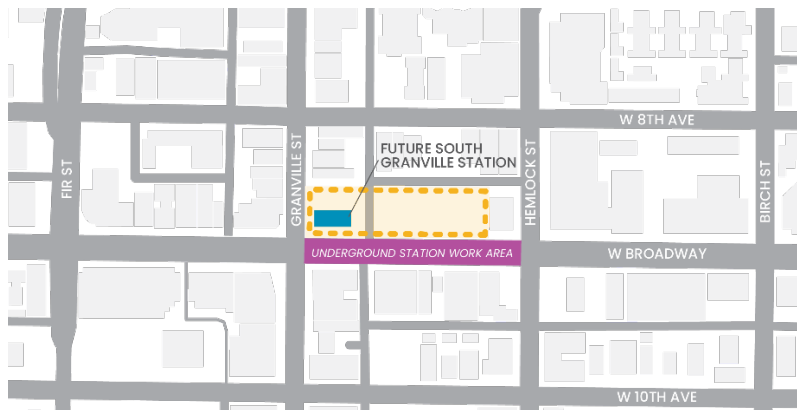

### Timing

Night work hours are from 10 p.m. to 12 a.m. and is planned until the end of the year.

### What to expect

- Elevated noise related to deliveries, concrete activities, rebar installation, and crane movement of materials into the station area
- Overnight lighting focused on our sites to ensure crew safety
- Trucking activities
- Possible temporary lane closures and changes to pedestrian access to accommodate deliveries

Mitigation measures include, but are not limited to, conducting the noisiest construction activities during the day, utilizing quieter models of equipment, including hand tools, and directing all lights away from residential buildings. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

### Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project. Please note, this information is current at time of sending, however schedules are subject to change.
