

Night work to lower equipment into excavation on Cambie Street

December 4, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Broadway-City Hall Station. Overnight on Tuesday, December 5, crews will be using a crane to lower equipment into the excavation on Cambie Street south of W. Broadway. This work requires moving the crane from one side of the excavation to the other and back again using W. 10th, Ash and Broadway.

Timing

December 5 starting at 10 p.m. and continuing until 4 a.m. the following morning.

What to expect

- Some elevated noise related to crane movement and the lowering of equipment into the excavation.
- Lighting focused on work area to ensure crew safety.
- Increased trucking, temporary lane closures and changes to pedestrian access to accommodate delivery and lowering of equipment into the excavation area.

Mitigation measures include, but are not limited to, installing white noise back-up signals on equipment, monitoring noisy activities so that mitigation measures can be adapted as needed, and directing lights away from residential buildings. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
