

Next phase of construction continues at the OAK-VGH station

December 4, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future OAK-VGH Station. With the arrival of both tunnel boring machines (TBMs), crews will continue working on the construction of the underground station concrete columns, walls and floors. Key construction activities include rebar installation, crane movement, delivery of materials and equipment, and regular concrete pours, which will continue through 2024. Tunnel boring activities will continue as the TBMs advance towards the future South Granville Station this fall.

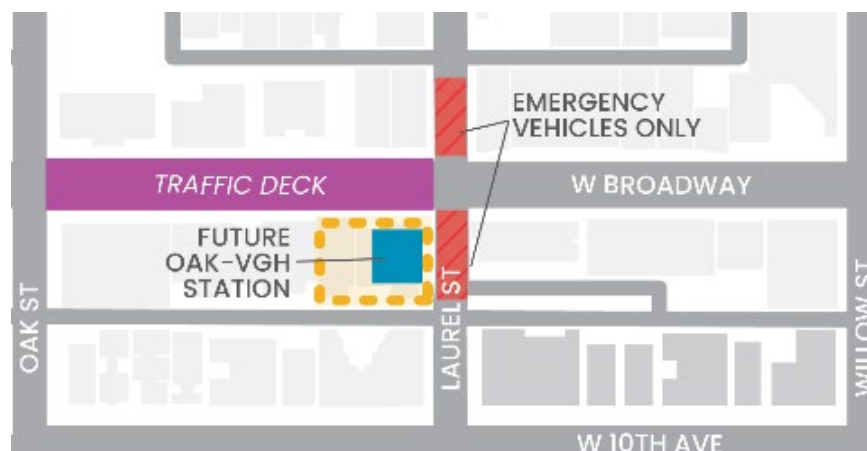

Timing

- Regular work hours are from Monday to Saturday from 6 a.m. until 10 p.m. There may be occasional work on Sunday and holidays.
- Intermittent overnight work from 10 p.m. to 5 a.m. We will continue to provide updates as work progresses.

What to expect

- Elevated noise.
- Temporary traffic changes and increased trucking activity related to the delivery of materials.
- Crane activity.
- Overnight for the safety of the crew.
- Tunnel boring activities, including conveyor belt movement, continue 24/7.

Mitigation measures include, but are not limited to, installing white noise back-up signals on equipment, installing noise barriers around sources of noise, conducting the noisiest activities during the day, directing lights away from residential buildings, and monitoring activities to adapt mitigations as needed to minimize impacts on our neighbours. Please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

Further details

Timing

- This phase will continue through 2024.

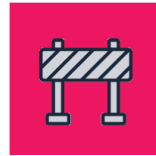

Hours of Work

- Monday to Saturday from 6 a.m. to 10 p.m. There may be occasional work on Sundays or holidays:
- Intermittent overnight work from 10 p.m. to 5 a.m. We will continue to provide updates as work progresses.
- Please note the Project also has the ability to work 24/7 when required.

Traffic

- Temporary traffic restrictions, sidewalk modifications, pedestrian detours, and lower speed limits.
- Regular temporary lane closures on W. Broadway on weekdays between 10 a.m. and 3 p.m., overnight or on weekends to support construction activities.
- Temporary lane closures on W. Broadway, Oak Street and Laurel Street may be implemented to support concrete pour activities.

Impacts/Interruptions

- Some elevated noise related to activities that include, but are not limited to, rebar installation, crane movement, deliveries, tunnel boring activities, conveyor belt movement and concrete pour activities.
- Increased trucking activity to accommodate deliveries of equipment and materials during the day or night and concrete pour activities.
- Lighting focused on our sites to ensure crew safety

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
