

Night work to maintain traffic deck at Broadway-City Hall December 20-21

December 20, 2023

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Broadway-City Hall Station. Overnight on December 20 and 21, crews will be maintaining the traffic deck along W. Broadway between Cambie and Alberta streets. While there will continue to be temporary changes to accommodate construction activities, the current traffic configuration along Broadway will remain in place until the traffic decks are removed later in the project.

Timing

- December 20 and 21, starting at 8 p.m. each night and continuing until 5 a.m. the following morning.

What to expect

- Some elevated noise related to welding activities.
- Lighting focused on work area to ensure crew safety.
- Intermittent temporary traffic lane restrictions during off-peak hours, changes to street parking and speed limits.

Mitigation measures include, but are not limited to, directing lights away from residential buildings, managing trucking to reduce the need for backing up, installing white noise back-up signals on equipment, and monitoring noisy activities so that measures can be adapted as needed. Please plan extra travel time, watch for wayfinding information, and obey traffic control personnel and all signs.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
