

Removing tree next to Canada Line Station

January 18, 2024

The Broadway Subway Project Corporation (BSPC) is in your neighbourhood building the future Broadway-City Hall Station. At the southeast corner of Cambie and W. Broadway, BSPC will remove one European Beech tree (species *Fagus sylvatica*) between 9 a.m. to 5 p.m. The area in green below highlights the approximate tree removal area. This work is required to provide clearance for construction.

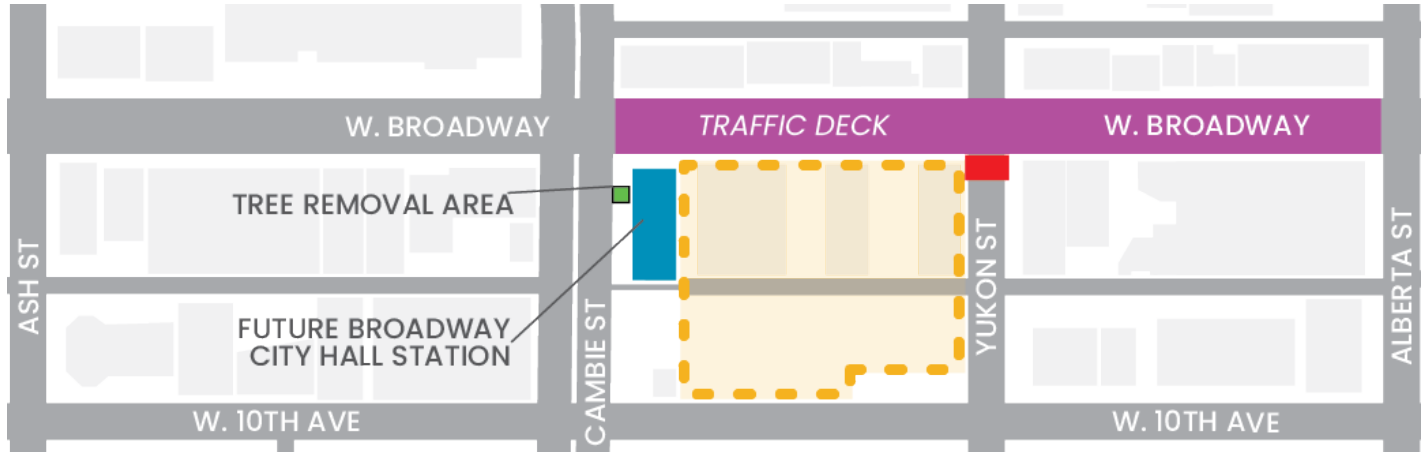

Timing

The tree removal is expected to happen between 9 a.m. to 5 p.m. on or after January 25th.

What to expect

- No major impacts expected as the tree is located within the construction site.
- Intermittent noise.

Mitigation measures include, but are not limited to, monitoring any noisy activities so that mitigation measures can be adapted as needed. Once work is completed, the Project team will work with the City of Vancouver through the street design process to replace the tree with one that complements existing trees in this neighbourhood. In addition, the landscape team will create vegetation features to maintain the neighbourhood's distinct look and feel.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
