

South Granville: South Lane Utility Work – Includes night activities

March 28, 2025

Note: This is an update of the notification from March 12, 2025, and we now have an updated schedule.

On March 13, utility work began in the south laneway, east of Granville Street between W. 10th Avenue and W. Broadway. This is the next phase of sequenced work to relocate utilities in the area, accommodating construction of the future South Granville Station. A map of the work area, including the present stages, timing and expected road closures, can be found below.

Construction Activities

Starting March 13, Monday to Friday, for approximately 6 weeks:

- Daytime work: 7 a.m. to 7 p.m. Focus is on preparation and identification of the existing utilities, excavation and backfilling.
- Intermittent night work: 7 p.m. to 6 a.m. Work includes excavation and installation of the temporary utilities.

What to expect

- Elevated and intermittent noise related to construction activities. We will aim to conduct the noisiest work before 10 p.m.
- This work is sequential, so some activities will need to happen after 10 p.m. We will make every effort to minimize these occasions when possible.
- Increased trucks, equipment and workers in the laneway east of Granville Street.

Traffic

- Temporary traffic restrictions in the laneway are expected for the duration of this work. Access to buildings and parkades adjacent to the laneway will be maintained when possible.
- Closure of two lanes on W. Broadway between Granville and Hemlock streets March 31 to April 4. Traffic will be reduced to one lane in each direction. This will include a pedestrian detour on the south side of W. Broadway, ensuring pedestrian access between Granville and Hemlock streets is maintained.
- Intermittent daytime traffic restrictions on W. 10th Avenue. Traffic will be reduced to one lane of alternating traffic between Granville and Hemlock streets.

- Preliminary Works: March 13-14. (Complete)
- Stage 1: Expected March 31-April 4. Associated traffic impacts on W. Broadway.
- Stage 2: Expected March 25. Ongoing. Associated traffic impacts on W. 10th Avenue.
- Following Stage 2, additional work in the north end of the laneway is expected. Exact dates and locations are to be determined based on the progress of sequenced work, and further updates will be provided.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
