

South Granville Station Concrete Pour on June 26

June 25, 2025

The Broadway Subway Project Corporation has scheduled a concrete pour at South Granville Station on Thursday, June 26. Crews will complete a major structural concrete pour for the station.

Construction Activities

- Work begins at 6 a.m. with the first truck arriving at 7 a.m. The pour will be completed at approximately 6 p.m.
- Approximately 65 trucks are expected.

What to expect

- Two concrete pump trucks will be used during the pour with pumps positioned within the construction site.
- Low-noise work may continue into the evening to complete related activities.
- Please note that concrete trucks are required to keep their engines running at all times to keep their drums turning and will use traditional back-up alarms for crew safety.
- During large concrete pours, temporary additional holding areas for concrete trucks may be required.

Traffic

Temporary traffic changes may be in place during the concrete pour as follows:

- Concrete trucks will arrive via W. 8th Avenue, and will leave via the lane running between W. 8th Avenue and W. Broadway.
- Traffic control personnel will be on-site to manage pedestrians, cyclists and concrete trucks.
- Access to the businesses, health services, and residences will be maintained for all activities.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project.
