## Update on Broadway-City Hall Station construction – Summer 2025

June 17, 2025

Construction of the upper levels of Broadway-City Hall Station is underway, progressing the underground station upwards, closer to street level. This summer, work will focus on constructing the upper level walls, columns and roof sections, along with installing track in the tunnels. Work on Cambie Street between W. Broadway and W. 10th Avenue continues to focus on constructing the passenger connections to the Canada Line. Curious to learn more about how track is installed? Check out our [infographic](#).

To complete this work efficiently, we will continue working during the day, with regular night work through the summer. We remain committed to keeping residents and businesses updated on our progress as we advance this major transit infrastructure project in your community.

### What to expect during daytime work

- Regular work hours are Monday to Saturday from 6 a.m. until 10 p.m. There may be occasional work on Sundays and holidays.
- Some elevated noise during specific activities.
- Ventilation fans are required to comply with WorkSafeBC requirements and will be active during all hours of work to ensure crew safety.
- Temporary lane closures and changes to pedestrian access to accommodate deliveries and construction activities.

### What to expect at night

- Night work hours can range from 10 p.m. to 6 a.m.
- Overnight lighting focused on our sites to ensure crew safety.

We strive to minimize impacts of construction activities on our neighbours, and we are regularly monitoring and adapting mitigations as needed. See below for further information.

When travelling through construction zones, please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

### Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project. For photos of construction progress at all six future stations visit the Broadway Subway Project [Flickr album](#).

## Further details

### Construction Activities

- Pouring concrete.
- Delivering materials, using trucks and cranes.
- Welding, waterproofing and installing rebar.
- Installing tracks inside the tunnels.
- Station construction is expected to continue through 2026.

### Traffic

- Regular temporary lane closures on W. Broadway and Cambie Street between 10 a.m. and 3 p.m., overnight or on weekends may be implemented to support construction activities and deliveries.

### Impacts

- Some elevated noise related to activities that include, but are not limited to, rebar installation, crane movement, ventilation fans and deliveries.
- Concrete trucks are required to keep their engines running to keep their drums turning and use traditional back-up alarms for crew safety.
- Trucking activity to accommodate deliveries of equipment and materials during the day or night.

### Mitigations

Mitigation measures include, but are not limited to:

- Performing the noisiest construction activities during the day.
- Noise barriers installed around some sources of noise.
- White noise back-up signals on equipment when possible.
- Directing lights away from residential buildings.
- Using quieter models of equipment at night, such as hand tools.
- Access for all abilities will be maintained to residences, businesses, and services.
