## Update on South Granville Station construction – Summer 2025

June 17, 2025

Crews are constructing the station roof at the future South Granville Station, as work activities steadily progress upwards. This summer, crews are also focusing on reinstating permanent utilities. Most construction will take place during the day, with occasional overnight work as needed. We remain committed to keeping nearby residents and businesses informed as this important transit project continues to take shape in your neighborhood.

### What to expect during daytime work

- Typical hours of work are from Monday to Saturday from 6 a.m. until 10 p.m. There may be occasional work that starts earlier or work on Sunday and holidays.
- Some elevated noise during specific activities.
- Ventilation fans are required to comply with WorkSafeBC requirements and will be active during all hours of work to ensure the safety of crews.
- The relocation of utilities continues through 2025.
- Temporary traffic changes related to materials delivery and concrete pours.

### What to expect at night

- When overnight work is required, work hours can range from 10 p.m. to 5 a.m.
- Overnight lighting focused on our sites to ensure crew safety.

We strive to minimize impacts of construction activities on our neighbours, and we are regularly monitoring and adapting mitigations as needed. See below for further information.

When travelling through construction zones, please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

### Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project. For photos of construction progress at all six future stations visit the Broadway Subway Project [Flickr album](#).

Please note, this information is current at the time of sending, however schedules are subject to change. For the most current details, visit [www.broadwaysubway.ca](http://www.broadwaysubway.ca).

## Further details

### Construction Activities

- Pouring concrete.
- Delivering materials using trucks and cranes.
- Welding, waterproofing and installing rebar.
- Relocating utilities between and along Hemlock and Granville streets.
- Activities to support construction inside the tunnels.
- Station construction is expected to continue through 2026.

### Traffic

- Regular temporary lane closures on W. Broadway on weekdays between 10 a.m. and 3 p.m., overnight or on weekends to support construction activities.
- Temporary lane closures on W. Broadway and Hemlock Street between 8th and 10th avenues may be implemented to support permanent utility reinstatement work
- Temporary turning restrictions at Granville Street to support some activities.

### Impacts

- Some elevated noise related to activities that include, but are not limited to, rebar installation, crane movement, ventilation fans and deliveries.
- Concrete trucks are required to keep their engines running to keep their drums turning and use traditional back-up alarms for crew safety.
- Trucking activity to accommodate deliveries of equipment and materials during the day or night.
- Access for all abilities will be maintained to residences, businesses, and services.

### Mitigations

Mitigation measures include, but are not limited to:

- Noise barriers installed around some sources of noise.
- White noise back-up signals on equipment when possible.
- Directing site lights away from residential buildings.
- Using quieter models of equipment at night, such as hand tools.
