## Update on track work – Fall 2025

September 19, 2025

Rail welding for the Broadway Subway Project continues across the Broadway Subway Project alignment from the elevated guideway to Arbutus Street. To install the SkyTrain track, crews weld pieces of rail together to create 400-metre-long segments, which are then pulled into the tunnel using specialized equipment. Over the last few months, track installation has been completed from VCC–Clark Station through to Broadway–City Hall Station.

Work at the elevated guideway will continue through the fall as rail is welded and pulled into the remaining tunnels all the way to Arbutus Station. Crews are also constructing a metal walkway along the elevated guideway. Curious to see track being installed? [Check out our most recent video.](#)

We remain committed to keeping residents and businesses informed as we advance this major transit infrastructure project in your community.

### What to expect during daytime work

- Regular hours on the elevated guideway are from 6 a.m. to 9 p.m.
- There may be occasional work on Sundays and holidays at the different station areas or elevated guideway.
- Some elevated noise during specific activities.
- Temporary traffic changes related to the delivery of materials.

We strive to minimize impacts of construction activities on our neighbours, and we are regularly monitoring and adapting mitigations as needed.

When travelling through construction zones, please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

### Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project. For photos of construction progress at all six future stations visit the Broadway Subway Project [Flickr album](#).

Please note, this information is current at the time of sending, however schedules are subject to change. For the most current details, visit [www.broadwaysubway.ca](http://www.broadwaysubway.ca).

## Further details

### Construction Activities

- Delivering materials by trucks and cranes.
- Welding pieces of rail together and transporting them for installation.
- Installing track on the elevated guideway.
- Constructing the metal walkway on top of the elevated guideway.

### Traffic

#### Closures:

- Earl Finning Way between Fraser and Foley streets.
- Foley Street north of parking access lane.
- Fraser Street north side closed to E. 1st Avenue and Earl Finning Way.

#### No parking:

- Along the north side of Great Northern Way, from 565 Great Northern Way west to Thornton Street.
- Along Earl Finning Way, Foley, and Fraser streets.
- Drivers are encouraged to use existing parkades.

### Impacts

- Some elevated noise related to activities that include, but are not limited to, rail welding, track installation, crane movement, and deliveries.
- Trucking activity to accommodate deliveries of equipment and materials during the day or night.

### Mitigations

Mitigation measures include, but are not limited to:

- Noise barriers installed around some sources of noise.
- Barriers to cover welding flash.
- White noise back-up signals on equipment when possible.
- Directing lights away from residential buildings.
- Access for all abilities will be maintained to residences, businesses, and services.
