## Arbutus Station Construction Update – Winter 2026

January 5, 2026

The Arbutus team closed out 2025 as the station completed its final roof pour. This winter, construction at the future Arbutus Station is entering a new phase, with crews beginning the reinstatement of permanent utilities, while also progressing backfilling, masonry, mechanical and electrical work, and planning the traffic deck removal. For traffic deck removal, each station site is unique and requires a customized approach. These assessments are ongoing, and more information will be shared in advance of the start of the work at the Arbutus Station. In addition, crews will be advancing construction of the station's above-ground structure, which will be visible at the northeast corner of W. Broadway and Arbutus Street. Work on the tail track tunnel will also continue throughout the winter.

To complete this work efficiently, we will continue working primarily during the day and intermittently overnight. We remain committed to keeping residents and businesses informed as this important transit project moves forward in your neighbourhood.

Curious about a behind-the-scenes look inside our station? Check out our most recent [video](#).

### What to expect during daytime work

- Regular hours of work are from Monday to Saturday from 6 a.m. until 10 p.m. There may be occasional work that starts earlier or work on Sunday and holidays.
- Some elevated noise during specific activities.
- Ventilation fans are required to comply with WorkSafeBC requirements and will be active during all hours of work to ensure the safety of crews.
- Temporary traffic changes related to materials delivery and concrete pour.

### What to expect at night

- When overnight work is required, work hours can range from 10 p.m. to 5 a.m.
- Overnight lighting focused on our sites to ensure crew safety.

We strive to minimize impacts of construction activities on our neighbours, and we are regularly monitoring and adapting mitigations as needed. See below for further information.

When travelling through construction zones, please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

### Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project. For photos of construction progress at all six future stations visit the Broadway Subway Project [Flickr album](#).

## Further details

### Construction Activities

- Concrete pours and rebar installation.
- Delivering materials using trucks and cranes.
- Welding, waterproofing, excavation, saw cutting, backfilling, roadworks, and hydro vac.
- Reinstating utilities between and along Arbutus and Maple streets.
- Activities to support work inside the tunnels.
- Station construction is expected to continue through 2026.

### Traffic

- One lane in each direction on W. Broadway between Arbutus and Burrard Street is maintained.
- Maple Street is closed to vehicles and cyclists between W. Broadway and the laneway towards 8th Avenue.
- W. 8th Avenue is one way only eastbound between Maple and Burrard streets.
- We recommend cyclists follow Arbutus Greenway detour signage.

### Impacts

- Some elevated noise related to activities that include, but are not limited to, backfilling, rebar installation, crane movement, ventilation fans, roadworks, and deliveries.
- Concrete trucks are required to keep their engines running to keep their drums turning and use traditional back-up alarms for crew safety.
- Trucking activity to accommodate deliveries of equipment and materials during the day or night.
- Access for all abilities will be maintained to residences, businesses, and services.

### Mitigations

Mitigation measures include, but are not limited to:

- Noise barriers installed around some sources of noise.
- White noise back-up signals on equipment when possible.
- Directing lights away from residential buildings.
- Using quieter models of equipment at night, such as hand tools.

Please note, this information is current at the time of sending, however schedules are subject to change. For the most current details, visit [www.broadwaysubway.ca](http://www.broadwaysubway.ca).
