Oak-VGH Station Construction Update – Winter 2026

January 5, 2026

Construction at Oak-VGH Station finished off the year with the completion of the underground station roof. Crews are now reinstating permanent utilities in and around the station, including street-level work on Oak Street and W. Broadway. Inside, masonry works, mechanical and electrical installation continues. This year, crews will remove the traffic decks, which requires a customized approach for this unique station. Assessments are ongoing, and more information will be shared in advance of the start of the work at the Oak-VGH Station.

To complete this work efficiently, we will continue working primarily during the day and intermittently overnight. We remain committed to keeping residents and businesses informed as this important transit project moves forward in your neighbourhood.

Curious about a behind-the-scenes look inside our station? Check out our most recent [video](#).

What to expect during daytime work

- Typical hours of work are from Monday to Saturday from 6 a.m. until 10 p.m. There may be occasional work that starts earlier or work on Sunday and holidays.
- Some elevated noise during specific activities.
- Ventilation fans are required to comply with WorkSafeBC requirements and will be active during all hours of work to ensure the safety of crews.
- Temporary traffic changes related to constructions work, road repairs, deliveries, geotechnical investigations, and equipment movement.

What to expect at night

- When overnight work is required, work hours can range from 10 p.m. to 5 a.m.
- Overnight lighting focused on our sites to ensure crew safety.

We strive to minimize impacts of construction activities on our neighbours, and we are regularly monitoring and adapting mitigations as needed. See below for further information.

When travelling through construction zones, please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience while we build this important transportation infrastructure project. For photos of construction progress at all six future stations visit the Broadway Subway Project [Flickr album](#).

Further details

Construction Activities

- Utility work taking place on W. Broadway between Oak and Laurel streets.
- Pouring concrete.
- Delivering materials using trucks and cranes.
- Welding, saw cutting, waterproofing, and backfilling.
- Activities to support work inside the tunnels.
- Station construction is expected to continue through 2026.

Traffic

- Regular temporary lane closures on W. Broadway between Oak and Laurel streets between 7 a.m. and 5 p.m., overnight or on weekends may be implemented to support construction activities and deliveries.
- Temporary lane closures on W. Broadway, Oak Street and Laurel Street as needed.
- Occasional left turn restrictions from W. Broadway to Oak Street. Some work may require the temporary restriction of parking on Laurel Street.

Impacts

- Some elevated noise related to activities that include, but are not limited to, rebar installation, crane movement, ventilation fans, hydro vac, road repairs and deliveries.
- Concrete trucks are required to keep their engines running to keep their drums turning and use traditional back-up alarms for crew safety.
- Trucking activity to accommodate deliveries of equipment and materials during the day or night.

Mitigations

Mitigation measures include, but are not limited to:

- Access for all abilities will be maintained to residences, businesses, and services.
- Noise barriers installed around some sources of noise.
- White noise back-up signals on equipment when possible.
- Directing site lights away from residential buildings.
- Using quieter models of equipment at night, such as hand tools.

Please note, this information is current at the time of sending, however schedules are subject to change. For the most current details, visit www.broadwaysubway.ca.
