

Arbutus Station – Scheduled night work on October 22

October 19, 2026

Crews are continuing road restoration work at Arbutus Station and are working on permanent utility connections to the new station. To complete the next phase of work, an additional overnight water main tie-in is planned for Thursday, October 22, at the northwest corner of W. Broadway and Cypress Street. The water shutdown is scheduled overnight to minimize impacts on the neighbourhood during the day. Project staff are directly sharing further information with all the stakeholders that will be affected by the water shutoffs.

Construction Activities

- On October 22 from 7 p.m. to 7 a.m. the following morning.
- Activities include, but are not limited to, hydrovac work as required, excavation, pipe installation, water main tie-in, worker and truck movements.

What to expect

- Overnight lighting focused on our work area to ensure crew safety.
- No changes to sidewalks or traffic conditions during this work.
- Elevated noise related to some construction activities. The noisiest work activities will be performed earlier in the evening when possible.

Mitigations

Mitigation measures include, but are not limited to:

- Noise barriers installed around hydrovac where feasible.
- White noise signals installed on construction equipment when possible.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience.
