South Granville Station – road restoration continues, includes night work

October 19, 2026

Crews are continuing construction at South Granville Station, with work progressing both inside and outside the station. Traffic on W. Broadway between Granville and Hemlock streets will shift to the north side of the road on October 22. This will allow crews to complete traffic deck removal, backfill and restore the road on the south side. Crews will be removing and repainting lines overnight on October 21 from 7 p.m. to 5 a.m. the following morning ahead of the traffic switch on Broadway.

Following the traffic switch, crews will be working in the day and overnight hours for approximately two weeks to remove the deck panels and supporting girders. Backfilling and road restoration work will continue on the south side of Broadway through winter 2027.

Utility work in the laneway south of Broadway is scheduled for completion this fall. Inside the station, crews are completing the interior finishings including ceilings and tiles, as well as installing and testing the equipment that will operate the SkyTrain system.

What to expect during daytime work

- Regular hours of work are from Monday to Saturday from 6 a.m. until 10 p.m. There may be occasional work that starts earlier or work on Sunday and holidays.
- Some elevated noise during specific activities as described below.
- Temporary traffic changes related to materials delivery, utilities reinstatement and traffic deck removal.

What to expect at night

- Approximately two weeks of night work is scheduled for traffic deck removal beginning October 21.
- When overnight work is required, work hours can range from 10 p.m. to 6 a.m.
- Some elevated noise related to construction activities, including removing line paint from the road and traffic deck removal.
- Overnight lighting focused on our sites to ensure crew safety.

We strive to minimize impacts of construction activities on our neighbours, and we are regularly monitoring and adapting mitigations as needed. See below for further information.

When travelling through construction zones, please plan extra time, watch for wayfinding information, and obey traffic control personnel and all signs.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood. Thank you for your continued patience. For photos of construction progress at all six future stations visit the Broadway Subway Project [Flickr album](#).

Further details

Construction Activities

- Material delivery, welding, waterproofing, excavation, saw cutting and hydro vac.
- Crane movements to dismantle and remove traffic deck panels and supporting girders.
- Backfilling, including the delivery, movement, and compacting of gravel.
- Reinstating utilities in the south lane between and Granville and Hemlock streets.
- Ventilation shaft construction on the south side of W Broadway. Work will temporarily reduce the width of the sidewalk.
- Activities to support work inside the tunnels.
- Station construction will continue through 2026.

Traffic

- W. Broadway is reduced to one lane in each direction between Birch and Granville streets until spring 2027 for traffic deck removal and road restoration work.
- Temporary lane closures may be implemented on Hemlock and Granville streets and along Broadway.
- Temporary turning restrictions at Granville and Hemlock streets at W. Broadway to support construction activities.

Impacts

- Some elevated noise related to activities that include, but are not limited to, backfilling, rebar installation, crane movement, ventilation fans, hydro vac, road works, and deliveries.
- Trucking activity to accommodate deliveries of equipment and materials during the day or night.
- Access will be maintained to residences, businesses, and services.

Mitigations

Mitigation measures include, but are not limited to:

- Noise barriers installed around some sources of noise.
- White noise back-up signals on equipment when possible.
- Directing lights away from residential buildings.
- Using quieter models of equipment at night, such as hand tools.

Please note, this information is current at the time of sending, however schedules are subject to change. For the most current details, visit www.broadwaysubway.ca.
