Oak-VGH Station – Night work starting November 2

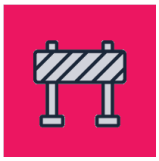

November 3, 2026

Overnight work starting Monday, November 2, will be required for approximately two weeks as crews finalize preparatory work and the installation of the water main tie-in connections. This work is scheduled overnight to minimize impacts of water shutoffs to the neighbourhood. Project staff are directly sharing further information with all businesses and residents that will be affected by the water shutoffs.

Construction Activities

- Overnight work hours are from 10 p.m. to 6 a.m.
- Activities include road works, utility investigations, hydrovac as required, backfilling and compacting material.

What to expect

- Overnight lighting focused on our work area to ensure crew safety.
- Elevated noise related to some activities. The noisiest work activities will be performed earlier in the evening when possible.
- Intermittent sidewalk closures and pedestrians will be detoured around the work area.

Traffic

- The sidewalk on the north side of Broadway between Oak and Laurel Streets will be temporarily closed during overnight construction activities.
- Intermittent single-lane alternating traffic on Broadway between Oak and Laurel Streets during the nighttime activities.

Mitigations

Mitigation measures include, but are not limited to:

- Noise barriers installed around hydrovac where possible.
- White noise back-up signals on equipment when possible.

Thank you for your patience

We know that construction can be disruptive, and we are working hard to minimize impacts in your neighbourhood.
